Class projects vary from course to course and students can also bring thier own projects to work on if the class project does not appeal to them. The proposed project for January is Tulips, this lovely guilt uses peeled back edges to create easy curves and simple fabric folding for the stamens.

- ••• Suitable for all levels unless specified in the calendar
- $\dot{\mathbf{v}}$ Complete beginners can join this course and discuss suitable projects.

Equilateral Triangles Heart Mug Rugs (or quilt) One Day Saturday 03-Feb-18

This guilt pattern uses equilateral triangles (60 degrees) to form heart shapes which can be made up as valentine mug rugs. Alternatively you can make up a whole guilt with the triangles. Cutting can either be done using a 60 degree triangle ruler or the

marks on you normal $24\frac{1}{2} \times 6\frac{1}{2}$ ruler. Both techniques will be demonstrated.

- ••• Machine sewing.
- * You need to be familiar with rotary cutting strips

This guilt pattern uses the light and dark aspect of log cabin without the strips. It is made using squares and can be made from ten or more different fabrics, making it great for using up scraps. The square quilt, you need 360 squares plus yardage of your background fabric which will be cut into strips. The starting size of your squares determines to the finished size of your quilt. The twin version is rectangular so you need 480 squares. This guilt pattern can also be strip pieced which will be demonstrated.
