

# Patchwork & Quilting Courses

## Double Dutch Pinwheel Stars

One Day (TBA)

£30/£27

These large 18" blocks are simple to piece and you only need a few to make a decent sized quilt or one for a cushion cover. The centre square is constructed from "off cuts" made during piecing the other units. There are several design variations possible, but it's a nice easy project that grows quickly and uses fat quarters.

- ❖ Rotary Cutting and Machine piecing. Suitable for absolute beginners.

## Jewel Box Quilt

5 weeks (2½hours) (TBA)

£75/£67.50

This quilt uses a variety of fabrics (at least 10 colours) along with a unifying background to create a jewel like glow. You can either use charm squares (pre-cut 5" squares) or cut what you need from scraps or yardage you already have. The finish size is about 45" square. Suitable for beginners and improvers.

- ❖ Machine sewing

## Sudoku -Appliqué / Quilt

One Day (TBA)

£30/£27

Use a solved Sudoku puzzle as the basis for making a cushion cover or other sized quilt. Smaller projects are layer cake, jelly roll and fat quarter friendly. This is a raw edge appliqué/quilting technique which makes a fast and fun top ready for binding, making into a cushion cover or as a panel for a tote bag.

- ❖ Machine stitching, rotary cutting

## Tessellating Pinwheels

One Day (TBA)

£30/£27

After sewing a simple grid of squares, students use an offset template to cut a further series of squares which when rotated a few degrees can be sewn back together to give this stunning interlocking pattern of pinwheels. All the seams are straight and it's easy to keep track of the blocks.

- ❖ Rotary Cutting, Machine Piecing. Suitable for beginners
