

Jewellery Making

Basic Jewellery Making & Beadwork.

5 weeks (2½hours)

£75/£67.50

Getting started making your own jewellery this class is designed for absolute beginners. Half the battle in jewellery making is knowing what everything is called, so I will show the students a huge range of findings and tools and then show the class how to use some simple components to make some stunning jewellery. Loops, crimps and basic stringing on beading and Memory Wire will be covered.

I have an extensive catalogue of jewellery making sessions available, please ask for details.

Follow on and more advanced classes in all subjects are also available. Please enquire for details.

Class fees are per person and do not include materials. For most classes you will be required to bring your own sewing machine and/or over locker. All electrical items will need to be PAT tested before use but this can be done at class if needed. It would be helpful if students could arrange to bring items in before the first class if possible to minimise disruption. You can also bring them to an open day or the launch date.

Please let Becky know as soon as possible if you are intending to attend a class.

Day class bookings- A non refundable deposit of £10 holds your space. The discount will be applied to the balance if paid at least a month before the class. If you have to cancel within one month of the class in addition to the deposit I am afraid I may also have to charge the remaining full cost of the class. Unfortunately I have had several people cancel either on the day or at very short notice in recent months making the classes unviable.

Looking forward to 2018 I am looking for input for what classes and workshops you would like to see.

If you have a request or idea then please do let Becky know as soon as possible. 07957-551898 (phone or text, but please remember to add your name to the text!!) or preferably email becky.preen@ntlworld.com.
